Piecing Directions for the Spool Block:

1. Piece corner blocks by sewing 2 patch A's together – one colored and one your background color. Do this for each block. You will be creating 16 blocks for the wall hanging. Press seams toward dark fabric.
2. Assemble block by rows. Row One will be: Corner Block, Patch B, Corner Block. Row Two: Attach one background Patch B, Patch A and another Patch B to create Row Two. Press seams toward the dark fabric.
3. Next, sew Row One and Row Two together, making sure Row One is on top. Lock seams into place so they will meet and not overlap. Press after sewing.
4. Finally, sew Row Three together. It is created the same way Row One was. Just be cautious in placing the corner blocks for Row One and Row Three to make sure they form the spool. Once you're satisfied with your placement, sew Row Three onto the other two rows to complete the block. Press the seam.

Assembling the Wall Hanging:

1. Assemble the quilt by rows with each row made up of four spool blocks. Alternate the position of each block – one block up, one block on its side, etc.
2. After the four rows are assembled, add the borders. Cut the borders according to the diagrams.
3. Attach the yellow border first. Attach side pieces first, then the top and bottom.
4. Attach purple border last. Attach side pieces first, then the top and bottom pieces last.
5. Finally, make a "quilt sandwich" by layering the quilt top you just made with batting and a backing. Baste the layers together to hold them together. Quilt and finish by binding.

Spool

Key Block (41/100 actual size)

Cutting Diagrams

4 patches

4 patches

For each of the 16 blocks cut 4 A patches in the color of the block and 4 A patches in the background color

3 patches

2 patches

For each of the 16 blocks cut 3 of the B patches in the color of the block and 2 of the B patches in the background color.
